**MAERSK
OIL**

Looking forward to our future cooperation with Eryk (formerly BIC) we feel optimistic. We have seen in practice that they are skilled, flexible and hard-working. Together with external auditors we have verified that Eryk has everything under control regarding quality and work environment, and that its employees are getting paid according to current salary rules and regulations.

Bruno Hansen

Construction Manager, Maersk Oil & Gas
– working with Eryk (back then BIC) on offshore maintenance in the Danish part of the North Sea.

Oil & Gas industry requires that **safety, quality** and **scalability** are at the highest level. Eryk can ensure all of them.

Whether it is the North Sea, Malaysia or any other place in the world, our electrical and mechanical teams can work either independently, or in close cooperation with the rest of the staff on site. Our technicians have also completed the necessary safety trainings.

Our experience includes work in Ex zones of production platforms on repair and maintenance of lighting circuits, switchboard drawers, measurements and checks of transformers, medium and low voltage switchboards, and installation of temperature and pressure sensors.

INSTALLATIONS, MAINTENANCE, SERVICE, COMMISSIONING

We provide English-speaking teams with the right skill set, experience and work ethic.

We handle:

- BOSIET, HUET, H2S, Atex and other trainings,
- certificates and pre-qualifications,
- registrations,
- insurance,
- compliance with legal requirements
- qualifications.

Our standards:

- HSEQ certified according to: DS/EN ISO 9001:2015, DS/EN ISO 14001:2015, OHSAS 18001:2008, KLS, DS 49001 E:2012,
- electrical installation authorised according to: Danish, Norwegian, Swedish and Polish authorities.

ABB

Eryk (formerly BIC) supports ABB on offshore projects in the Danish part of the North Sea. With Eryk we are able to scale up and down, whenever it is needed and we have a stable collaboration partner we can rely on. They respect safety rules and are able to work alone on periodical checks of electrical switchboards as well as team up with our technicians.

Jesper Fauerskov

Engineering Manager, ABB

– working with Eryk (back then BIC) on maintenance of electrical installation in the North Sea
