

Eryk

Scalable technical services for Aquaculture, Seafood Processing and Water Industry

OVER 250 PROFESSIONALS EXPERIENCED IN ALL PHASES OF ASSEMBLY, INSTALLATION, AUTOMATION & COMMISSIONING. COMPREHENSIVE SERVICES ON SITES WORLDWIDE.

Eryk (back then BIC Electric) has provided Envotherm with assistance during mechanical and electrical installation of wastewater treatment system for jet engine maintenance – in a flagship project for us, in Rzeszow. Eryk turned out to be a great partner for the task. We appreciate the professional service and the ability to meet high H&S Standards as well as good team spirit combined with efficiency. We would like to emphasize the role of Eryk's Team Leader who has supported us with his outstanding managerial skills and versatile competences to lead this challenging project.

Erik Beck, QA/QC Manager
Envotherm A/S

ENVOTHERM.

ENGINEERING, INSTALLATION AND COMMISSIONING OF AUTOMATION SYSTEMS

Eryk's areas are:

- ◆ Fish farming, aquaculture and waste water treatment plants
- ◆ Electrical installations in industrial facilities
- ◆ Mechanical assembly of machinery
- ◆ Conveyor-, sorting- and palletizing systems
- ◆ Petrochemical and CHP plants
- ◆ Automated systems and production plants
- ◆ Control cabinets and switch gears
- ◆ Welded constructions for industrial plants

Electricians

Mechanics

Welders

Electrical engineers

OUR STANDARDS:

- ◆ Highly trained and experienced professionals
- ◆ Electrical authorizations in: Denmark, Norway, Sweden and Poland
- ◆ Compliance with global HSEQ standards
- ◆ Compliance with national regulations in the project countries
- ◆ Flexibility, high quality and high efficiency
- ◆ Comprehensive service, incl. travel and accommodation, registrations, visas etc.

Our cooperation involved full commissioning of the electrical installation of the wastewater treatment facility in Dubai. Eryk was responsible for the rebuild of control cabinets, troubleshooting and modifications of software and connections, integrating the control system with SCADA and for creating as-built documentation. The end customer was very satisfied with the quality of work and with the implemented smart solutions.
